

STA 471

Survey of Background

Richard McCormick (RLM443)

1. Your background of statistics:

I have taken STA 270. I am comfortable doing some basic statistical tasks, but I do not know a lot about statistics.

2. Your background of matrix algebra:

I have taken MAT 316 and am comfortable doing basic matrix algebra.

3. Your background of statistical software packages:

I have extensive experience using Python packages such as Pandas and NumPy. I have some experience with R and am taking STA 444 and STA 445 to get more experience.
